

UNIVERSITY OF ROCHESTER—LOCATION OF THE SITE FOR THE STRUCTURES.—We learn that the committee, having in charge the subject of locating the site of the 'University of Rochester,' have decided in favor of the lot on Riley st., on the farm of Hon. A. Boody. It is the ground occupied by the County Fair last year—comprises eight acres beautifully situated between two of the principal avenues of the city, and commanding an extensive view of the Railroad and surrounding country. It is besides on land of excellent quality, high and dry, and when put in order, will present all desirable features for the purposes for which it has been selected. The choice is a fortunate one, and will be approved by the Board of Trustees at their meeting in July, beyond all question. There is no doubt about the matter.
